

School District Integrated Pest Management Plan

When completed, this template meets the Healthy Schools Act requirement for an integrated pest management (IPM) plan. An IPM plan is required if a school district uses pesticides¹.

Contacts

School District Name	Address	
Sierra-Plumas Joint Unified School District	109 Beckwith Road Loyalton, CA 96118	
District IPM Coordinator	IPM Coordinator's Phone Number	Email
Dr. Merrill M. Grant	530 993-1660 Ext *837	mgrant@spjUSD.org ; htomatis@spjUSD.org

IPM statement

It is the goal of Sierra-Plumas Joint Unified School District to implement IPM by focusing on long-term prevention or suppression of pests through accurate pest identification, by frequent monitoring for pest presence, by applying appropriate action levels, and by making the habitat less conducive to pests using sanitation and mechanical and physical controls. Pesticides that are effective will be used in a manner that minimizes risks to people, property, and the environment, and only after other options have been shown ineffective.

Our pest management objectives are to: *(Example: Focus on long-term pest prevention)*

To use the least toxic and most effective methods possible for long term pest prevention while maintaining a healthy school environment.

IPM team

In addition to the IPM Coordinator, other individuals who are involved in purchasing, making IPM decisions, applying pesticides, and complying with the Healthy Schools Act requirements, include:

Name and/or Title	Role in IPM program
Superintendent	Pest management decision making
Maintenance Team, All School Sites	Pest management decision making, purchasing pesticides and management tools, pesticide application
Custodians	Antimicrobials decision making, purchasing antimicrobials and management tools and application

Pest management contracting

- Pest management services are contracted to a licensed pest control business.
Pest Control Business name(s): TERMINIX for services at Loyalton Elementary School and Loyalton High School.
- Prior to entering into a contract, the school district has confirmed that the pest control business understands the training requirement and other requirements of the Healthy Schools Act.

Pest identification, monitoring and inspection

Pest identification is done by: maintenance staff and pest control business (LES and LHS only)
(Example: College/University staff, Pest Control Business, etc.)

Monitoring and inspecting for pests and conditions that lead to pest problems are done regularly by maintenance and other staff and results are communicated to the IPM Coordinator. Kitchen staff observe traps daily and report any pests to maintenance staff. Our school sites are small and therefore enable staff to keep an eye on their areas and communicate to maintenance staff. This is an ongoing practice.

Notification

This school district has made this IPM plan publicly available by the following methods (check at least one):

This IPM plan can be found online at the following web address: www.sierracountyofficeofeducation.org

This IPM plan is sent out to all parents, guardians and staff annually.

Review

This IPM plan will be reviewed (and revised, if needed) at least annually to ensure that the information provided is still true and correct. Date of next review: February 2018

I acknowledge that I have reviewed this school district's IPM Plan and it is true and correct.
