GENERAL INFORMATION

Sierra-Plumas Joint Unified School District is considered a small school district. Therefore, each school need not develop an individual safety plan when the District creates one applicable to each school site.

California Education Code §32281(d)(1)

"Subdivision(b) shall not apply to a small school district, as defined in paragraph (2), if the small school district develops a districtwide comprehensive school safety plan that is applicable to each school site."

Assessment of Crime

Crime Reports

In the school year of 2011-2012, there were a total of nine crime reports made.

Suspensions/Expulsions

In the 2011-2012 school year, eight students were suspended for a total of fifteen days.

In the 2011-12 school year, one student was expelled.

School Crisis and Safety Plan Summary

Sierra county residents are aware that the following may characterize major emergency situations:

- There is little advance warning.
- Highways may be closed.
- Telephones and other major utilities may be out for several days.
- In a major disaster, deaths and injuries will exceed the capacity of our health facilities.
- Because government and school agencies are limited in their capabilities, it is likely that our school and our nearby community must be self-sufficient for a time and may be required to provide shelter to the immediate community.

The objectives of our plan are the following:

1. To provide for action which will minimize injuries and loss of life of students and staff;
2. To provide for maximum use of school personnel and school facilities;
3. To ensure the safety and protection of our students and school personnel immediately after a disaster, and
4. To arrange for a calm and efficient plan for parents to retrieve their children from school if necessary.

To meet these objectives, in the event a disaster should occur when children are at school, the following action plan would be implemented.

Action Plan Summary

A. Teachers Will:

- Give "**Duck, Cover and Hold On**" instructions in event of earthquake.
- Evacuate building in case of fire or after an earthquake.
- Take emergency folder and evacuate students to assigned area on yard.
- Take classroom emergency kit only when evacuating after an earthquake.
- Hold students in assigned yard area, take roll, and wait for further instructions.
- Remain with class and report anyone who is missing.
- Take appropriate first aid action.
- Not re-enter buildings until deemed safe by authorities.
- Dismiss students to go home only to parent/or authorized adult. Children must be signed out by parent/or authorized adult.

B. Assigned School Personnel Will:

- In the event of a fire, shut off gas, electricity and water (in that order). (Custodians, maintenance personnel)
- In the event of an earthquake, if gas is smelled, turn off gas; if there is an electrical problem, turn off electricity; if there are water leaks, turn off water.
- Set up and coordinate a first aid center.
- Report to site administrator for further instructions.
- Assume assigned emergency response roles: i.e., coordinate a first aid center, engage in search and rescue tasks, supervise students, secure gates, etc.

C. Site administrator's Office Will:

- If telephones are operable: notify **9-1-1** (Sierra County Sheriff) and the school district office for Level 2 & 3 emergencies,¹ District Office for all emergencies; and monitor incoming phone calls.
- Establish communication with the school district office.
- Maintain communication with staff and outside agencies.
- Assign available adults to tasks as needed.
- Site administrator to decide if evacuation to a designated shelter is necessary.

¹ As defined in Section I, pg. 10

Special Information for Parents

A. Crisis Information

Parents will receive initial information by the "Emergency Phone Notification System" or by a "snow day" telephone call (i.e., where teachers or others have a list of parents to notify in case of a school emergency when the Phone Notification System is not working).

Do not come to or call the school! Each school will designate a parent gathering center where parents will be informed and, when possible, pick up their children.

B. Parent Gathering Places

- Loyalton Schools: Holy Family Catholic Church
- Downieville Schools: Yuba Theatre (park in corner parking lot)

C. Student Dismissal

In the event of a major earthquake, **school will not be dismissed, and children will remain under the supervision of school authorities** until parents or responsible adults can pick them up.

If the site administrator or teacher in charge determines that students are to be dismissed following a crisis event, they will be transported to the parent- gathering place, where their parents can pick them up, or be dismissed to return home by the usual method.

D. Picking Up Your Child

Students will be released at the designated gathering center. After signing the Student Release form, your child (and any other children you are picking up) will be released to you. Only teachers, children and parent volunteers will be allowed onto the playground.

Do not remove your child or any other child from school or gathering areas without having signed your name on the emergency release form. This provides a record of each child's location.

Many of you may not be able to reach school by automobile or phone. If conditions make it necessary, we will release your child to the adult indicated on your child's "Emergency Release" form. We will keep a written record of the child and the adult to whom the child has been released.

If children are caught in a disaster between home and the school, it is

recommended they go immediately to school.

E. Food and Water Supply

In the event that children would need to remain on campus for several hours after any sort of a disaster, we have a supply of food and fresh water. However, the supply is limited.

F. First Aid

School personnel have been trained in first aid and CPR. Each classroom has a specially designed disaster kit containing appropriate supplies.

1. Introduction

Purpose

Each school site in the Sierra-Plumas Joint Unified School District has provided safe ingress and egress for students and staff, including drop off areas at the front of schools and specific arrival and departure procedures for bus students. This plan is designed to provide a framework for protecting students, staff and school facilities, as well as to describe the responsibilities of staff members, for a wide range of emergency and disaster situations that may occur. In the event of a widespread emergency such as an earthquake, it is recognized that available government resources will be overtaxed and may be unable to respond to all requests for assistance. The school must be self-sufficient for a time and may be required to provide shelter to the immediate community.

Levels of Emergencies

Services are described by one of the following three levels:

- **Level One Emergency:** A localized emergency which school district personnel can handle by following the procedures at their own site. *Examples: power outage, minor earthquake, tragedies affecting students.*
- **Level Two Emergency:** A moderate to severe emergency, somewhat beyond the school district response capability, which may require mutual aid assistance from the fire department, police, etc. *Examples: fire, severe earthquake with injuries and/or structural damage.*
- **Level Three Emergency:** A major disaster, clearly beyond the response capability of school district personnel, where large amounts of mutual aid assistance will be required, recovery time will be extensive, and the response time from major supportive agencies may be seriously delayed and/or impaired.

Authorities and References

The Plan is based on federal and state law, as well as the District's adopted policy and administrative regulations.²

Plan Implementation

The Plan will be:

- Initiated by the superintendent, site administrator or designee when conditions exist which warrant its execution.
- Implemented by all staff that will remain at school and perform those duties as assigned until released by the site administrator.
- Reviewed at least annually.³
- Emergency and disaster functions have been identified and pre-assigned.
- The Emergency Teams will be updated at least annually (see pg. 18).

² Section VII, Authorities and References, pg. 93

³ Ibid

- To fully implement this plan each school shall have:
 - A working PA system available in all rooms and areas with students and staff
 - Rooms that are lockable from the inside
 - Drapes or other covering for all windows
 - Telephones in all rooms for communication purposes

2. Planning

A. Hazard Assessment

Each school year, prior to the arrival of the teaching staff, the site administrator and maintenance staff will undertake a physical survey of all hazards likely to be encountered in the evacuation routes from classrooms and other activity rooms to safe, open-space areas.

B. Staff Orientation/Training

All school staff will be oriented to this Plan by the site administrator and/or designee at the beginning of each school year.

Emergency Preparedness Week will be held no later than the second week of school. During this time each drill will be practiced and evaluated for effectiveness.⁴

Staff members designated for medical responsibilities shall have first aid and CPR certification and training in triage.

C. Drills

In accordance with state law:

- Fire drills will be conducted on a monthly basis.⁵
- An earthquake "Drop, Cover and Hold On" drill will be held each quarter. for elementary schools and once each semester for secondary schools.⁶
- Test earthquake plan, or portions thereof, on a rotating basis, at least two (2) times during the school year.⁷
- All students and staff will participate in these mandated drills.
- Substitutes and volunteers will participate at least once each year.
- All drills will be recorded on the Emergency Drills form.⁸

D. Evacuation Routes and Emergency Signals & Procedures

The site administrator is responsible for establishing safe evacuation routes from all school facilities. Evacuation routes must be posted in all classrooms, multi-purpose rooms, and the school office.

Emergency signals & procedures will be posted in each classroom, library and office. Each classroom will have an emergency binder containing:

- A summary of emergency procedures.
- Current class roster. Middle and high schools will have a roster for each period of the school day.
- "Pick-up" information for each student.

⁴ Section IV, pg. 57

⁵ Code of Regulations, Title 5, 550

⁶ EC 35297

⁷ Section 560, Title V, California Administrative Code

⁸ Section VI, Form D, pg. 83

- Emergency phone/cell numbers in case of separation from the main group.

Front of binder will be green to use to signal "all accounted for"; the back will be red to signal "missing student" or "help needed".

E. Emergency Signals:

- Fire..... Fire drill bell
- Earthquake drill Air horn or PA announcement for drill
- Secure Building PA announcement or three short bells
- Return to building Short whistle blasts or PA announcement
- All Clear One long bell, or PA announcement

In the event the PA or bells are not working, runners will be used to inform staff and students.

F. Parent Communication/Responsibility

Pertinent components of this Plan will be included in the beginning-of-school parent packet and other means of regularly communicating with parents.

All parents will complete a Student Release form for their child and designate other persons who are authorized to pick-up their child at a pre-designated place in the event of an emergency. (School campus pickup may be inappropriate in some emergencies.)

G. Supplies and Equipment

Disaster supplies and equipment are maintained as follows:

- Emergency kits in each classroom.
- First aid and other search and rescue supplies which may be needed during the first few hours following an emergency.
- Tools for shutting off the utilities at each shut-off location.

H. Emergency File

An Emergency File containing Student Release information for all students and blank Student Release-Permission Slips will be maintained in the school office marked "EMERGENCY FILE", and will be taken by the school secretary whenever the school building is evacuated.⁹

⁹ Section VI, Form K, pg. 92.

3. Communications

During an emergency, telephones and cell phones will only be used to report emergency conditions or to request emergency assistance.

In the event that telephone and/or electrical service is interrupted, other means must be relied upon to relay information. Runners will be utilized within the school building and on school grounds.

It is the responsibility of the superintendent to disseminate information to the public.

Site administrator or designee will:

- Notify the district/county office of the school's status/needs.
- Designate staff member(s) to monitor all communications.

Parents will be notified of an emergency and where to go to receive information using the "Emergency Phone Notification System". Each school will also have a "snow day" plan for parent notification in the event the phones are not working. Parents/staff will be reminded during the Emergency Preparedness Week to have a land line phone for emergency use.

4. Emergency Actions

When an emergency occurs, it is critical that every staff member take immediate steps to protect themselves and others.

The following Emergency Actions are detailed in Section II, EMERGENCY ACTIONS. Each staff member must become familiar with each Emergency Action and be prepared to do assigned responsibilities.

All students are to be taught and to practice what their actions are when the following Emergency Actions are implemented:

1. Leave Building
2. Stand-By Lockdown
3. Secure Building/Shelter in Place
4. Evacuation/Directed Transportation

1. Preface

Staff awareness and knowledge of what to do in the following emergencies is vital for the safety of all on our campuses.

Therefore, the following methods will be used for dissemination of information about procedures:

- Staff handbook and discussion at staff meeting.
- Substitute folders.
- Drill during Emergency Preparedness Week and additionally as required by law. It is recommended that law enforcement be present for the drill to help monitor and improve performance.
- Volunteers and substitutes will participate in drills at least twice a year.

It is recommended that students should be aware in advance that there will be severe consequences for failure to cooperate with administration or staff during an emergency or drill.

In emergencies, the administrator or designee is in charge. Some duties are pre-designated, and some will be assigned as needed. See Team Responsibilities.¹²

During Level 3 emergencies, the Sierra County Office of Emergency Services will be the lead agency, coordinating needed services.

¹² Section I, pg. 19.

3. Flood

LEVEL 1 EMERGENCY

None of the SPJUSD schools are in a flood zone. However, there will be times when transportation of students to their homes may be through flood prone areas.

A. Within School Buildings (such as broken water mains, or sewer or floods that may prevent student transportation.)

1. The extent of the crisis will dictate the course of action to be taken. Depending on the situation, the Site administrator may find it necessary to initiate one or more of the following Emergency Actions and procedures:
 - a) Action **STAND-BY**, followed by
 - b) Action **LEAVE BUILDING**, or
 - c) Action **DIRECTED TRANSPORTATION**, or
 - d) On official request, action **CONVERT SCHOOL** for emergency evacuations.
2. Sound the appropriate warning signal.
3. Maintain communication with County Emergency Services for information updates.
4. Supervise the execution of the action decided upon.
5. The site administrator will notify the Superintendent of action taken.

LEVEL 1 OR LEVEL 2 EMERGENCY

A. When Inside

1. Action **DUCK, COVER AND HOLD ON** upon an indication of an earthquake and at teacher's command. Teacher will try to close curtains if inside.
2. Try to avoid glass and falling objects. Move away from windows where there are large panes of glass and out from under heavy suspended light fixtures. (The same applies to other staff members.)
3. When the earthquake is over, Site administrator or designee will initiate action **LEAVE BUILDING/EVACUATE BUILDING**.

 - a) Post guards a safe distance away from building entrances to see that no one re-enters the buildings.
 - b) Warn all personnel to avoid touching electrical wires which may have fallen to the ground.
 - c) Notify the superintendent.
 - d) Notify the appropriate utility company of breaks or suspected breaks in utility lines or pipes.
 - e) Inspect school buildings. When damage is apparent, contact superintendent and determine the advisability of closing the school.
 - f) Initiate any other action deemed necessary, or return to normal routine.

- Have fire marshal or other experts inspect school buildings. When damage is apparent, contact the superintendent and determine the advisability of closing the school.
- If school must be closed, notify staff members and students.
- Notify the District Office who will inform public media as appropriate.

5. Loss of Utilities and/or Sewer Problems

A. Warning

1. During School Hours
 - a) Advance notice may be received from utility companies regarding loss of service. In many cases, these losses of service will be of short duration and require no special action other than notifying staff of the pending interruption of service.
 - b) Make announcement in person directly or over public address system.
 - c) Use messengers with oral or written word as an alternate means of faculty notification.
2. Other Than School Hours

6. Severe Weather

LEVEL 1 EMERGENCY

A. Wind:

1. With Warning
 - a) *Site administrator or designee will:*
 - Initiate action, **STAND-BY.**
 - Take appropriate actions to safeguard school property.
2. With Little or No Warning
 - a) *Teachers will:*
 - Initiate action **DUCK, COVER, & HOLD ON**
 - Ensure that all windows and blinds are closed.
 - Evacuate classrooms bearing the full force of the wind to inside rooms.
 - Do not allow structures with large, open roof spans to be used as shelter.
 - b) *Site administrator or designee will:*
 - Notify the appropriate utility company of breaks or suspected breaks in utility lines or pipes.
 - Notify the superintendent.
 - Upon passage of the storm initiate any other appropriate action, or return to normal routine.

B. Lightning:

1. Fundamental Principles
 - a) No place outside is safe with thunderstorms within six miles.
 - b) Schedule indoor activities to avoid lightning.
 - c) '30-30 Rule' (If 30 sec between lightning and thunder, go inside. While inside, stay away from corded telephones, electrical appliances and wiring, and plumbing. Stay inside until 30 min after last thunder.)
 - d) Avoid dangerous locations/activities. (elevated places, open areas, tall isolated objects, water activities.)
 - e) If on a school trip, teacher will signal students return to buses at first sign of lightening. Remain seated with hands in laps, as far from windows as possible.
 - f) Do **NOT** go under trees to keep dry in thunderstorms!
 - g) Lightning Crouch. (desperate last resort)
 - h) First Aid: Call 9-1-1. CPR or rescue breathing, as appropriate.
2. Lightning Crouch
 - a) USE THIS AS A DESPERATE LAST RESORT ONLY! Remember, no place outside is safe with lightning in the area. If you've made several bad decisions and are outside far away from proper shelter and lightning threatens, proceed to the safest location. If lightning is imminent, it will sometimes give a few seconds of

warning. Sometimes your hair will stand upright, your skin will tingle, light metal objects will vibrate, or you'll hear a crackling static-like "kee-kee" sound. If this happens and you're in a group:

3. Lightning Crouch (con't)

- Spread out so there are several body lengths between each person. If one person is struck, the others may not be hit and can give first aid.
 - Once you've spread out, use the lightning crouch; put your feet together, squat down, tuck your head, and cover your ears.
- b) When the immediate threat of lightning has passed, continue heading to the safest spot possible. Remember, this is a desperate last resort; you are much safer having followed the previous steps and not gotten into this high-risk situation.

4. First-Aid

All deaths from lightning are from cardiac arrest or stopped breathing from the cardiac arrest.

- a) Start CPR or rescue breathing if the person has no pulse or no breathing, respectively.
- b) Have someone call 9-1-1 for professional emergency medical care.

7. Weapons Fired

A. Report of Weapons Fired on Campus or Near School

1. Students will immediately get on the floor. action: Duck, Cover and Hold On
2. Close windows and curtains.

4. Safety is the main concern. Keep everyone in an area under cover and concealed if possible. Stay behind solid walls and doors. Keep away from windows.
5. If the suspect is seen, do not engage the suspect. This could generate a hostage situation.
6. If the suspect is outside, try to keep him/her outside. If it is safe, lock the entry doors.
7. A suspect should be considered armed, unstable and extremely dangerous.
8. Have a special/pre-arranged all-clear signal when situation/school is safe/secure.

8. Hazardous Materials

A. Procedures

1. If necessary, call 9-1-1.
2. The site administrator will determine which Emergency Action, if any, should be implemented. (The nature of the material and the nearness of the accident will probably be the deciding factor. Police, Fire, Public Health or Environmental Health Departments may order Evacuation of the school.)
3. If there is a threat of airborne toxicity, shut-off ventilation system in affected area.
4. If necessary, implement action **LEAVE BUILDING**.
5. Any toxic cloud that can affect students in their classrooms would very likely affect them outside on the school grounds as well. If time is of prime importance, it may be necessary to evacuate the school by foot. If this occurs, move crosswind to avoid fumes, never upwind or downwind.
6. Any persons that are suspected of being contaminated with a substance that could be transferred to others should be isolated until public safety personnel carry out decontamination procedures.
7. If time is available, initiate action **DIRECTED TRANSPORTATION**. Move students and staff away from the path of the chemical. Determine whether students should be sent home--if so, notify parents as per notification plan.
8. Notify the superintendent.
9. Teachers report names of missing students to office.¹³ Those not found will be reported to Fire or Police officials, if forced by conditions to evacuate the school grounds.
10. Do not allow the return of students to the school grounds or buildings until public safety officials declare the area safe.
11. Upon return to school, Custodians/Maintenance personnel must ensure that all classrooms are adequately aired.

When students with special needs are not with their general education classroom, the special education staff assigned to those students will escort the child to the general education teacher wherever they have assembled.

In the case that a child is more severely handicapped, an appropriate emergency plan will be written into the student's IEP to be followed by the special education staff.

Section IV – Emergency Preparedness Week

- Agenda for Emergency Preparedness Week
- EP Week
- EP Week Team Discussion Check List
- General Emergency Instructions
- Monday
- Tuesday & Wednesday
- Thursday & Friday

1. Agenda for Emergency Preparedness (EP) Week

A. Prior to EP Week

- All teachers are asked to review the Emergency Handbook and make sure your evacuation map is posted and students know where to go. Everything you need to know is in the Handbook
- All teams of teachers should review the procedures for EP Week found in the Handbook. New teachers please ask the veterans any questions you may have. Make sure you have all the telephone numbers you need for the Staff Snow Day List in case the Emergency Phone Notification System doesn't work and that you know the order of calls and what to do if someone doesn't answer. If there is no answer, call Emergency contact for that student. You should also check to see where the alarms are located near your room and where the first aid kits are in your building. You should also have an alternate evacuation route from your room.
- See that instructions for minimizing germs through proper hygiene and proper coughing and sneezing methods are posted throughout the school, as appropriate.

B. Notes

- Please do not share the drill time schedule with your students.
- When making plans for a substitute, please note in your plans the location of the Emergency Handbook. Request subs to familiarize themselves with it.
- The Emergency Handbook will be placed near the door. You must take the book with you to any drills/emergencies.
- During drills held at breaks, students will either evacuate to field area or take cover in the gym/multipurpose room. Unless it's a terrorist drill, please go to the area where students are and help with supervision.

2. EP Week

- ❖ **Monday**.....Orientation Day
 - Students should know all exit routes from each of their classrooms and where to meet. It's OK to practice taking cover and the evacuation routes.

3. EP Week Team Discussion Checklist

Every teacher should be familiar with our school's emergency plan found in our emergency Handbook and the instructions for Emergency Preparedness Week. In addition, the following suggestions may be helpful.

A. Every teacher should know:

- The evacuation route and meeting place of his/her room, maps are posted, review them with your students. New teachers need to walk their routes and see the meeting places.
- The location of fire alarms on campus and specifically the two closest to his/her room.
- The location of fire extinguishers in his/her classroom.
- The location of the first aid kit in the classroom.
- The purpose of the Emergency phone cards. Please check to see that all phone numbers are current and correct.
- The procedure to contact the office by phone.
- The different codes for evacuation of a building or for getting into a building.
- An alternate route from his/her room in case there is a fire or structural damage to his/her room.

B. Discuss evacuation procedures

- Teachers are to take Emergency Handbook, close door, stay with students going to meeting place, take roll, alert the administration if any students (who are not absent) are missing or injured, keep class together as orderly as possible, until the "all clear signal".
- If someone in your room shows a weapon, alert the office if you can. If possible, remove students from the room. If necessary/possible, dial 9-1-1. If there is some emergency situation on campus, follow procedures until relieved by police or fire department. You may need to make decisions covering topics not discussed here. Always keep the safety of your students as your top priority. Get help when possible and do your best to keep the students out of harm's way.

4. General Emergency Instructions

Teachers, please share the following with your students on Monday in preparation for Emergency Preparedness Week. You may use this as a script or just a basis for sharing the information with your classes.

This is the Sierra-Plumas Joint Unified School District "Emergency Preparedness Week." Every day this week you will be discussing and reviewing procedures for different types of emergencies.

Your teachers will tell you how to evacuate their rooms for fire or earthquake situations. You should know where the evacuation map is in each of your classrooms and where the evacuation areas are all over the campus. Look at each one and know where to go should you need to leave in an emergency. The evacuation signal is the fire alarm. Return to the building immediately is three short bells or whistle blows. The all clear signal is one long bell.

When leaving a room, stay with your teacher and go to your designated area in a quiet orderly way. Once there, your teacher will take attendance. If you notice a student is missing, notify your teacher who will then notify the site administrator or secretary. You are to remain with your class and not mingle or communicate with other classes so that if your teacher should need to give your further emergency directions, you will be able to hear and follow quickly. When the all clear signal is sounded, quietly return to class. Please return at your teacher's direction.

Should an earthquake occur, duck under your desk or a table, and cover your head to the best of your ability. Remain there until notified that you can move. If severe structural damage has happened to the building, your teacher may direct you to evacuate to your regular or alternate evacuation area. Remain there until the all clear signal or until notified.

If a teacher suddenly becomes incapacitated (falls, faints, becomes ill, etc.), a student needs to immediately call the office and report the emergency. A second student should go to the nearest teacher and seek help. All need to act calmly and quickly. These students need to be pre-selected with alternates.

Should a student become incapacitated in class or on the grounds, find an adult. If possible, another student should stay with the incapacitated student until help arrives.

Should a stranger intrude on the campus or some other terrorist event occur, a warning over the intercom, or a messenger will signal students to stay in the classrooms. At this point, windows and doors should be closed and locked. If you're in class or a break, seek shelter in a room. Your teachers will discuss with you this week the safest place in their rooms for shelter. Remain quiet and calm until the all clear signal is sounded.

All visitors are to check in through the office and should have a visitor's badge displayed. If you see a stranger on campus, do not approach that person and tell a staff member immediately.

Should an emergency occur during recess, lunch or P.E., similar procedures should be followed. Staff members are always on duty; follow their directions and use common sense and stay calm. If you hear the evacuation signal, go to the evacuation area designated for your class. If there were a severe earthquake, duck, cover and hold on to something until the quake has finished. Then go to the primary evacuation area. Should an intruder be on campus 3 whistle blasts will be the signal to go into the nearest building for shelter.

We hope you will never be in an emergency situation, but if you are, it is better to be prepared, have a plan, and know how to act.

***In the event of a chemical spill please DO NOT under any circumstance allow students to leave your room. You may be instructed to cover windows, doors and/or use respirator masks. Please stay tuned to the intercom or walkie talkie. If you have a child in a pull out program, keep them in your room and notify the office. Office staff will notify classroom teacher. Please report missing students to the office so we may search for them.*

Monday

A. Monday..... Orientation Day

- Discuss "General Emergency Instructions" so that all students know:
 - a) The evacuation route from your room and assembly area.
 - b) The bell signals:
 - The fire drill means evacuate buildings.
 - One long bell will signal "all clear".
 - The earthquake drill signal (different from the fire bell).
 - c) The location of the fire alarms around the school, the one closest to your room, and the penalty for false alarms. In the event a fire bell goes off accidentally, the office will stop evacuation over the intercom.
 - d) The safest areas in your room during an earthquake or terrorist attack (e.g. under desks, away from windows).
 - e) That orderliness is required to, from and while at the evacuation site.
 - f) Where to find the posted map.
 - g) Location of first aid kits in each classroom.
- Discuss what students should do if there is a substitute teacher.
 - a) Select students who will contact the office if necessary.
- Teachers must have at all times their emergency handbooks during an emergency.
- After each drill, allow the students to voice their questions and/or concerns about the procedures.

Tuesday & Wednesday

B. Tuesday Fire Drill Day

- At the evacuation signal (fire Alarm), all classes will move in an orderly and quiet manner to their designated areas.
 - a) Classes are to remain in line with their teachers while role is taken.
 - b) If any students are discovered missing, the teacher must hold up the red side of their handbook and notify administration as soon as possible.
 - c) There is to be no interaction between classes.
- At the all-clear signal, teachers are to signal their classes when it is their turn. Students are to return quietly to their rooms.
- Upon return to classroom, discuss with students any concerns they or you may have.

C. Wednesday Chemical Attack Day

- An intercom announcement will inform all that there has been a report of a possible chemical spill/attack.
- Classes must stay indoors at all times. No one is to go outside for any reason.
- If instructed, teachers must duct tape outside doors/windows and vents or air ducts. Office personal shall make sure all heating systems with outside access are shut down.
- Staff and students should remain solely inside until notified that the drill is complete.

Thursday & Friday

D. Thursday Earthquake Day

- A special bell will be sounded to signal the beginning of the earthquake drill. Teachers will command "Duck, Cover, & Hold On".
- Students will immediately duck under desks or tables, away from light fixtures and/or windows and stay quiet. If possible, teachers will close curtains against flying glass.
- After the simulation, the evacuation (fire) bell will ring and teachers are to direct their students to their designated areas. You may have to take an alternate route due to "structural damage".
- Once at the designated area, teachers are to take roll and to report any missing students.
- At the all clear signal, everyone should return in order to their classrooms.

E. Friday Civil Disturbance Day

- An intercom announcement will inform all that there are unauthorized strangers on campus.
- Stay in your room, make sure the doors and windows are closed and locked and the blinds are closed. Students are to move to the safest area in your room, possibly under their desks or away from windows. All should remain quiet and still until notified.
- Administration and staff will check the doors of the rooms and students are expected to stay quiet rather than react to the rattling of the door. *In an emergency, a noise in a room would alert an intruder that there are people there and thus place those people in danger.*

Earthquake emergency procedures shall include, but not be limited to, all of the following: (Education Code 32282)

1. A school building disaster plan, ready for implementation at any time, for maintaining the safety and care of students and staff
2. A drop procedure whereby each student and staff member takes cover under a table or desk, dropping to his/her knees, with the head protected by the arms and the back to the windows or currently recommended practices or guidelines.

Drop procedures shall be practiced at least once each school quarter in elementary schools and at least once each semester in secondary schools.

3. Protective measures to be taken before, during, and following an earthquake
4. A program to ensure that students and staff are aware of and properly trained in the earthquake emergency procedure system

(cf. 4131 - Staff Development)

(cf. 4231 - Staff Development)

(cf. 4331 - Staff Development)

Staff and students shall be informed of the dangers to expect in an earthquake and procedures to be followed. Students shall be instructed to remain silent and follow directions given by staff in such an emergency. Staff and students also shall be taught safety precautions to take if they are in the open or on the way to or from school when an earthquake occurs.

Earthquake emergency procedures shall designate primary and alternative locations outside of buildings, which may include areas off campus if necessary, where individuals on a school site will assemble following evacuation. In designating such areas, the Superintendent or designee shall consider potential post-earthquake hazards outside school buildings including, but not limited to, power lines, trees, covered walkways, chain link fences that may be an electric shock hazard, and areas near buildings that may have debris.

Earthquake emergency procedures also shall outline primary and alternative evacuation routes that avoid areas with potential hazards to the extent possible. The needs of students with disabilities shall be considered when planning evacuation routes.

The Superintendent or designee shall identify at least one individual within each building to determine if an evacuation is necessary, the best evacuation location, and the best route to that location when an earthquake occurs.

The Superintendent or designee shall identify potential earthquake hazards in classrooms and other district facilities, including, but not limited to, areas where the main gas supply or electric current enters the building, suspended ceilings, pendant light fixtures, large windows, stairwells, science laboratories, storage areas for hazardous materials, shop areas, and unsecured furniture and equipment. To the extent possible, dangers presented by such potential hazards shall be minimized by securing equipment and furnishings and removing heavy objects from high shelves.

Earthquake While Indoors at School

When an earthquake occurs, the following actions shall be taken inside buildings and classrooms:

1. Staff shall have students perform the drop procedure. Students should stay in the drop position until the emergency is over or until further instructions are given.
2. In laboratories, burners should be extinguished, if possible, before taking cover.
3. As soon as possible, staff shall move students away from windows, shelves, and heavy objects or furniture that may fall.
4. After the earthquake, the site administrator or designee shall determine whether planned evacuation routes and assembly locations are safe and shall communicate with teachers and other staff.
5. When directed by the site administrator or designee to evacuate, or if classrooms or other facilities present dangerous hazards that require immediate evacuation, staff shall account for all students under their supervision and shall evacuate the building in an orderly manner.

Earthquake While Outdoors on School Grounds

When an earthquake occurs, the following actions shall be taken by staff or other persons in authority who are outdoors on school grounds:

1. Staff shall direct students to walk away from buildings, trees, overhead power lines, power poles, or exposed wires.
2. Staff shall have students perform the drop procedure.
3. Staff shall have students stay in the open until the earthquake is over or until further directions are given.

Earthquake While on the Bus

If students are on the school bus when an earthquake occurs, the bus driver shall take proper precautions to ensure student safety, which may include pulling over to the side of the road or driving to a location away from outside hazards, if possible. Following the earthquake, the driver shall contact the Superintendent or designee for instructions before proceeding on the route or, if such contact is not possible, drive to an evacuation or assembly location.

(cf. 3543 - Transportation Safety and Emergencies)

Subsequent Emergency Procedures

After an earthquake episode has subsided, the following actions shall be taken:

1. Staff shall extinguish small fires if safe.
2. Staff shall provide first aid to any injured students, take roll, and report missing students to the site administrator or designee.
3. Staff and students shall refrain from lighting any stoves or burners or operating any electrical switches until the area is declared safe.
4. All buildings shall be inspected for water and gas leaks, electrical breakages, and large cracks or earth slippage affecting buildings.
5. The site administrator or designee shall post staff at safe distances from all building entrances and instruct staff and students to remain outside the buildings until they are declared safe.
6. The site administrator or designee shall request assistance as needed from the county or city civil defense office, fire and police departments, city and county building inspectors, and utility companies and shall confer with them regarding the advisability of closing the school.
7. The site administrator or designee shall contact the Superintendent or designee and request further instructions after assessing the earthquake damage.
8. The Superintendent or designee shall provide updates to parents/guardians of district students and members of the community about the incident, any safety issues, and follow-up directions.

The policy guideline shall meet the criteria established in that part of the *Civil Defense and Disaster Planning Guide for School Officials entitled "Essential Characteristics of the School Planning Guide"*, published by the State Department of Education, and shall be subject to approval by the county superintendent of schools. The policy guideline shall be reviewed at least annually and revised as needed. Plans and revisions may be subject to review and approval by the State Department of Education.

Each school plan shall satisfy the governing Board's policy guideline, coordinate with the appropriate local government plan, be reviewed at least annually and be kept current.
- (c) Require each school to test its plan (other than fire drills) or each portion thereof on a rotating basis at least two times during the school year and keep a record of such tests. The record shall be maintained in a manner determined by the governing board, and available to the Department of Education upon request.

Earthquake Emergency Procedures

EDUCATION CODE §35295 LEGISLATIVE FINDINGS AND DECLARATIONS

35295. The Legislature finds and declares the following:

(a) Because of the generally acknowledged fact that California will experience moderate to severe earthquakes in the foreseeable future, increased efforts to reduce earthquake hazards should be encouraged and supported.

(b) In order to minimize loss of life and disruption, it is necessary for all private elementary schools and high schools to develop school disaster plans and specifically an earthquake emergency procedure system so that pupils and staff will act instinctively and correctly when an earthquake disaster strikes.

(c) It is therefore the intent of the Legislature in enacting this article to authorize the establishment of earthquake emergency procedure systems in kindergarten and grades 1 through 12 in all private schools in California.

35296. The governing board of each private school shall establish an earthquake emergency procedure system in every private school building under its jurisdiction having an occupant capacity of 50 or more pupils or more than one classroom. A governing board may work with the California Emergency Management Agency and the Seismic Safety Commission to develop and establish the earthquake emergency procedure systems.

35297. The earthquake emergency procedure system shall include, but not be limited to, all of the following:

(a) A school building disaster plan, ready for implementation at any time, for maintaining the safety and care of students and staffs.

(b) A drop procedure. As used in this article, "drop procedure" means an activity whereby each student and staff member takes cover under a table or desk, dropping to his or her knees, with the head protected by the arms, and the back to the windows. A drop procedure practice shall be held at least once each school quarter in elementary schools and at least once a semester in secondary schools.

(c) Protective measures to be taken before, during, and following an earthquake.

(d) A program to ensure that the students and that both the certificated and classified staff are aware of, and properly trained in, the earthquake emergency procedure system. *(Amended by Stats. 1988, Ch. 448, Sec. 1.)*

EDUCATION CODE §35294 LEGISLATIVE INTENT

35294.10. (a) It is the intent of the Legislature that all public schools with any combination of instructional settings from kindergarten to grade 7, inclusive, have access to supplemental resources to establish programs and strategies that promote school safety and emphasize violence prevention among children and youth in the public schools. It is further the intent of the Legislature to fund and coordinate the programs and activities carried out pursuant to the Interagency School Safety Demonstration Act of 1985 (Chapter 2.5 (commencing with Section 32260)), relating to safe school model programs; Article 5 (commencing with Section 32280) of Chapter 2.5 of Part 19, relating to the development of school safety plans; and Article 6 (commencing with Section 32296) of Chapter 2.5 of Part 19, relating to school community policing, in a cooperative and interactive effort to promote school safety and violence prevention in the public schools.

(b) It is further the intent of the Legislature that the Superintendent of Public Instruction and the Attorney General shall utilize available resources to make every effort to coordinate activities and the distribution of resources to maximize their effective and efficient use in establishing and maintaining safe schools.

EDUCATION CODE §32282 SCHOOL SAFETY PLANS

(a)The comprehensive school safety plan shall include, but not be limited to, both of the following:

(1)Assessing the current status of school crime committed on school campuses and at school-related functions.

(2)Identifying appropriate strategies and programs that will provide or maintain a high level of school safety and address the school’s procedures for complying with existing laws related to school safety, which shall include the development of all of the following:

(A)Child abuse reporting procedures consistent with Article 2.5 (commencing with Section 11164) of Chapter 2 of Title 1 of Part 4 of the Penal Code.

(B)Disaster procedures, routine and emergency, including adaptations for pupils with disabilities in accordance with the federal Americans with Disabilities Act of 1990 (42 U.S.C. Sec. 12101 et seq.). The disaster procedures shall also include, but not be limited to, both of the following:

(i)Establishing an earthquake emergency procedure system in every public school building having an occupant capacity of 50 or more pupils or more than one classroom. A district or county office may work with the California Emergency Management Agency and the Seismic Safety Commission to develop and establish the earthquake emergency procedure system. The system shall include, but not be limited to, all of the following:

(I)A school building disaster plan, ready for implementation at any time, for maintaining the safety and care of pupils and staff.

(II)A drop procedure whereby each pupil and staff member takes cover under a table or desk, dropping to his or her knees, with the head protected by the arms, and the back to the windows. A drop procedure practice shall be held at least once each school quarter in elementary schools and at least once a semester in secondary schools.

(III)Protective measures to be taken before, during, and following an earthquake.

(IV)A program to ensure that pupils and both the certificated and classified staff are aware of, and properly trained in, the earthquake emergency procedure system.

(ii)Establishing a procedure to allow a public agency, including the American Red Cross, to use school buildings, grounds, and equipment for mass care and welfare shelters during disasters or other emergencies affecting the public health and welfare. The district or county office shall cooperate with the public agency in furnishing and maintaining the services as the district or county office may deem necessary to meet the needs of the community.

(C)Policies pursuant to subdivision (d) of Section 48915 for pupils who committed an act listed in subdivision (c) of Section 48915 and other school-designated serious acts which would lead to suspension, expulsion, or mandatory expulsion recommendations pursuant to Article 1 (commencing with Section 48900) of Chapter 6 of Part 27 of Division 4 of Title 2.

(D)Procedures to notify teachers of dangerous pupils pursuant to Section 49079.

(E)A discrimination and harassment policy consistent with the prohibition against

discrimination contained in Chapter 2 (commencing with Section 200) of Part 1.

(F)The provisions of any schoolwide dress code, pursuant to Section 35183, that prohibits pupils from wearing “gang-related apparel,” if the school has adopted that type of a dress code. For those purposes, the comprehensive school safety plan shall define “gang-related apparel.” The definition shall be limited to apparel that, if worn or displayed on a school campus, reasonably could be determined to threaten the health and safety of the school environment. Any schoolwide dress code established pursuant to this section and Section 35183 shall be enforced on the school campus and at any school-sponsored activity by the site administrator of the school or the person designated by the site administrator. For purposes of this paragraph, “gang-related apparel” shall not be considered a protected form of speech pursuant to Section 48950.

(G)Procedures for safe ingress and egress of pupils, parents, and school employees to and from school.

(H)A safe and orderly environment conducive to learning at the school.

(I)The rules and procedures on school discipline adopted pursuant to Sections 35291 and 35291.5.

(b)It is the intent of the Legislature that schools develop comprehensive school safety plans using existing resources, including the materials and services of the partnership, pursuant to this chapter. It is also the intent of the Legislature that schools use the handbook developed and distributed by the School/Law Enforcement Partnership Program entitled “Safe Schools: A Planning Guide for Action” in conjunction with developing their plan for school safety.

(c)Grants to assist schools in implementing their comprehensive school safety plan shall be made available through the partnership as authorized by Section 32285.

(d)Each schoolsite council or school safety planning committee in developing and updating a comprehensive school safety plan shall, where practical, consult, cooperate, and coordinate with other schoolsite councils or school safety planning committees.

(e)The comprehensive school safety plan may be evaluated and amended, as needed, by the school safety planning committee, but shall be evaluated at least once a year, to ensure that the comprehensive school safety plan is properly implemented. An updated file of all safety-related plans and materials shall be readily available for inspection by the public.

(f)As comprehensive school safety plans are reviewed and updated, the Legislature encourages all plans, to the extent that resources are available, to include policies and procedures aimed at the prevention of bullying.

(g)The comprehensive school safety plan, as written and updated by the schoolsite council or school safety planning committee, shall be submitted for approval under subdivision (a) of Section 32288.
