Part IV - Carry-forward Adjustment

The carry-forward adjustment is an after-the-fact adjustment for the difference between indirect costs recoverable using the indirect cost rate approved for use in a given year, and the actual indirect costs incurred in that year. The carry-forward adjustment eliminates the need for LEAs to file amended federal reports when their actual indirect costs vary from the estimated indirect costs on which the approved rate was based.

Where the ratio of indirect costs incurred in the current year is less than the estimated ratio of indirect costs on which the approved rate for use in the current year was based, the carry-forward adjustment is limited by using either the approved rate times current year base costs, or the highest rate actually used to recover costs from any program times current year base costs, if the highest rate used was less than the approved rate. Rates used to recover costs from programs are displayed in Exhibit A.

1a. STANDARD NOT MET - Unrestricted deficit spending has exceeded the standard percentage level in any of the current year or two subsequent fiscal years. Provide reasons for the deficit spending, a description of the methods and assumptions used in balancing the unrestricted budget, and what changes will be made to ensure that the budget deficits are eliminated or are balanced within the standard.

Explanation: (required if NOT met) Our expenditures have increased due to COVID-19 regulations and revenues have been reduced. We are not receiving the standard COLA increase to our revenues and have had to implement increased protocols for safety measures for both students and staff. Funding that was provided specifically for these purposes is not adequate to offset the increased expenditures. The result is an increase in deficit spending. We are reviewing all costs and making attempts to reduce all expenditures where possible.

SELPA: Sierra County (AW)

This form is used to check maintenance of effort (MOE) for an LEA, whether the LEA is a member of a SELPA or is a single-LEA SELPA.

Per the federal Subsequent Years Rule, in order to determine the required level of effort, the LEA must look back to the last fiscal year in which the LEA maintained effort using the same method by which it is currently establishing the compliance standard. To meet the requirement of the Subsequent Years Rule, the LMC-I worksheet has been revised to make changes to sections 3.A.1, 3.A.2, 3.B.1, and 3.B.2. The revised sections allow the LEA to compare the 2020-21 projected expenditures to the most recent fiscal year the LEA met MOE using that method, which is the comparison year.

There are four methods that the LEA can use to demonstrate the compliance standard. They are (1) combined state and local expenditures; (2) combined state and local expenditures on a per capita basis; (3) local expenditures only; and (4) local expenditures only on a per capita basis.

The LEA is only required to pass one of the tests to meet the MOE requirement. However, the LEA is required to show results for all four methods.

SECTION 1 Exempt Reduction Under 34 CFR Section 300.204

If your LEA determines that a reduction in expenditures occurred as a result of one or more of the following conditions, you may calculate a reduction to the required MOE standard. Reductions may apply to combined state and local MOE standard, local only MOE standard, or both.

- 1. Voluntary departure, by retirement or otherwise, or departure for just cause, of special education or related services personnel.
- 2. A decrease in the enrollment of children with disabilities.
- 3. The termination of the obligation of the agency to provide a program of special education to a particular child with a disability that is an exceptionally costly program, as determined by the SEA, because the child:
 - a. Has left the jurisdiction of the agency;
 - b. Has reached the age at which the obligation of the agency to provide free appropriate public education (FAPE) to the child has terminated; or
 - c. No longer needs the program of special education.
- 4. The termination of costly expenditures for long-term purchases, such as the acquisition of equipment or the construction of school facilities.

5. The assumption of cost by the high cost fund operated by the SEA under 34 CFR Sec. 300.704(c).

SECTION 2 Reduction to MOE Requirement Under IDEA, Section 613 (a)(2)(C) (34 CFR Sec. 300.205)

IMPORTANT NOTE: Only LEAs that have a "meets requirement" compliance determination and that are not found significantly disproportionate for the current year are eligible to use this option to reduce their MOE requirement.

Up to 50% of the increase in IDEA Part B Section 611 funding in current year compared with prior year may be used to reduce the required level of state and local expenditures. This option is available only if the LEA used or will use the freed up funds for activities authorized under the Elementary and Secondary Education Act (ESEA) of 1965. Also, the amount of Part B funds used for early intervening services (34 CFR 300.226(a)) will count toward the maximum amount by which the LEA may reduce its MOE requirement under this exception [P.L. 108-446].
